

## A Quote from Hugh Christie

Senior Project Manager, Heathrow Airport Capital Projects

Dominique was the Lead Planner managing a small team of Planners working on varying types of capially funded infrastructure projects which at any time could be in excess of £100m.

Her team selection was critical as it ensured the right individuals were selected to manage the planning function for the department and interfacing with the Project Managers. I put my total trust in Dominique's planning knowledge.

Dominique is diligent, analytical and is very approachable and was an integral part of the departments management structure.
