

A Quote from Oana Muresan,

Project Manager, Heathrow Airport Capital Projects

Dom is super knowledgeable when it comes to planning. What I really like about working with Dom is that she challenges all activities in the project plan, any changes to the plan. She has so much experience in projects and planning that her challenges can really help project managers have a programme they believe in and have certainty in. Dom is accessible and efficient, she works fast and delivers on all activities she commits to. Dom is very straight forward, honest and helpful. On a personal level, Dom is caring and thoughtful as well as inclusive
